

SIX HOBOES ATTACK BRAKEMAN AND FATALITY BEAT CONDUCTOR

Conductor McMillan of the Rock Island is reported dying in the hospital at Alamogordo, N. M., as the result of a battle with six tramps who attempted to hold up and rob his train Monday night when it pulled into Tularosa.

McMillan was in charge of west-bound passenger train No. 3. As soon as the train pulled into Tularosa the six tramps made a rush for the brakeman and were fast overpowering him when McMillan ran to the rescue. Four of the men, two of whom were armed, turned upon the conductor and before the porter could come to his assistance inflicted wounds which the doctors say will prove fatal. Officers were called, but before they arrived the tramps fled. Two of them have been arrested. McMillan was taken to the hospital unconscious.

AFTER SUFFERING ONE YEAR

Cured by Lydia E. Pinkham's Vegetable Compound

Milwaukee, Wis. — "Lydia E. Pinkham's Vegetable Compound has made me a well woman, and I would like to tell the whole world of it. I suffered from female trouble and fearful pains my back. I had the best doctors and they all decided that I had a tumor in addition to my female trouble, and advised an operation. Lydia E. Pinkham's Vegetable Compound made me a well woman and I have no more backache. I hope I can help others by telling them what Lydia E. Pinkham's Vegetable Compound has done for me." — Mrs. EMMA LIME, 833 First St., Milwaukee, Wis.

The above is only one of the thousands of grateful letters which are constantly being received by the Pinkham Medicine Company of Lynn, Mass., which prove beyond a doubt that Lydia E. Pinkham's Vegetable Compound, made from roots and herbs, actually does cure these obstinate diseases of women after all other means have failed, and that every such suffering woman owes it to herself to at least give Lydia E. Pinkham's Vegetable Compound a trial before submitting to an operation, or giving up hope of recovery.

Johnny Ransdell, receiving clerk at the local freight depot, is a splendid enough Christian Science man, only that sin, pain and almost death itself overtake an ice-man when such mortal things are unknown to the cult. But have Johnny relate the story to you when he is not too busily engaged in unloading dry farming machinery during working hours.

FOREIGN BEET WORKERS CAUSE DEAL OF TROUBLE

Fred G. Holmes, general manager, and J. W. Douthitt, field manager for the Western Sugar & Land company, with headquarters at Grand Junction, Colo., and whose operations cover a large territory in the rich agricultural land on the western slope, Monday shipped 75 families, recruited in Denver, Lincoln and Pueblo, to Montrose, Delta, Olathe and Hotchkiss, Colo., where they will be employed in the beet fields.

The beets have already been planted, and the mission of the immigrants is to thin, top and care for generally the new crop until the time of digging. This work the immigrants have contracted to do for \$20 per acre, and it is calculated that an average family can care for 20 acres in a season. This requires only two months' actual work on the average, and the caretakers and their families are at liberty to do extra work, such as fruit picking, etc., for which they get good pay.

Also it is figured that many of the caretakers, most of whom are Scandinavians, will take up homesteads in the new country and eventually make thrifty, intelligent citizens.

"It is a great job to herd these people, many of whom cannot talk English," said Mr. Douthitt yesterday. "They are always missing their train en route and getting lost. I try to keep them on the trains as best I can but am continually getting telegrams saying 'Boy lost,' or something of the sort. I remember that once enroute to Montrose we had to back the train several miles to pick up a fellow who had strayed from the train and was left behind. But we always get them, sooner or later, because they don't mean to desert."
